

Saint John Fisher Parish Council Meeting 19 September 2010

By Ann Moran

The parish Council has been studying the values, vision, mission and goals of Saint John Fisher written several years ago. We have carefully reviewed the results from the survey done at the end of the 'Year of Renewal' and our individual thoughts.

The council represents the youth to mature adults with varied interests and talents, yet we all saw similar goals and found a common ground. We have worked very hard and have a very comfortable relationship with each other. Bits of humor make the work flow easier.

We have completed a rough draft and will be seeking input from the Pastoral Team and each of the commissions.
